

TEMPLATE FOR

Plastic Badge ZC10L

With Double Slot

General Tips

- Place your artwork within the blue lines, on the "Your Design" layer (available as a layer in **Ai**)
- Edit and save your files in **CMYK**
- Outline all text before saving (select all layers, under the "Type" menu select "Create Outlines")
- Use vector artwork for best results. Images in your design should be **300ppi** or higher
- We recommend saving as a **PDF/X-1a**

Bleed Zone

Make sure your background extends 0.125" to fill the bleed and avoid white on edges when trimmed. We recommend a common top to bottom bleed color to avoid possible color misalignment along perforation.
